SKILLS

- **Frontend Frameworks:** Next.js, Tailwind CSS
- **Libraries:** React Js ,React Native
- **Programming Languages:** Python, JavaScript
- **Databases:** Firebase, MongoDB

TRAINING AND INTERNSHIP

Internship July 2023 - Sep 2023
Henotic Technologies *Bhimavaram, India*

- Utilized machine learning, AI, and data science to enhance algorithms for predicting client responses in banking marketing. Collaborated with experts to optimize marketing and decision-making.

Training 2023
PMKVY *Bhimavaram, India*

- Completed a comprehensive training program in software development under the PMKVY scheme, equipping myself with fundamental skills and knowledge essential for a career in software development.

PROJECTS

- **College Department Website** Developed a college department website using HTML, CSS, JavaScript, and jQuery, successfully delivering course information, placement updates, and event details to over 1,000 students and faculty members, thereby improving departmental access and engagement by 30%. ([Project Link](#))
- **Recipe App** Spearheaded the development of an all-in-one cooking resource via a custom-built mobile app in React Native that streamlined access to hundreds of detailed recipes while normalizing load times under three seconds. ([GitHub Repo](#))
- **Chat Application** Engineered a real-time messaging system using PusherJS Realtime Chat, enhancing response times to under two seconds and improving overall user engagement by facilitating instant conversations among group members. ([Project Link](#))
